

## IEEE SRI LANKA

The IEEE Sri Lanka Section, as part of the global Institute of Electrical and Electronics Engineers (IEEE), supports the local engineering community by organizing conferences, workshops, and seminars to promote continuous learning. It assists IEEE student branches in universities across Sri Lanka by facilitating competitions, hackathons, and various other technical events. IEEE Sri Lanka also connects the local engineering ecosystem with global trends and actively engages in community outreach and humanitarian initiatives aimed at advancing national technology.

## IEEE Student Branch University of Ruhuna

The IEEE Student Branch of the University of Ruhuna, organizes a range of workshops, seminars, and competitions designed to enhance students' technical skills and knowledge. The branch fosters connections with industry professionals and other IEEE student branches, while also providing leadership and volunteering opportunities to cultivate essential management skills. Furthermore, it links students to the global IEEE network, offering valuable international exposure and helping bridge the gap between academia and industry.
