

What is CareerXpo 2.0

CareerXpo 2.0 is proudly organized by the IEEE Student Branch, University of Ruhuna, in collaboration with the Electrical and Information Engineering Society (EIES).

Building on the success of the first edition, CareerXpo 2.0 aims to empower final-year undergraduates of the Department of Electrical and Information Engineering (DEIE) with essential career building tools.

This event connects fresh graduates with industry professionals offering insights and pathways into internships and job opportunities.

Through interactive sessions, CV reviews, and mock interviews, students will enhance their professional skills and confidence.

CareerXpo 2.0 is your gateway to industry readiness, shaping future engineers to meet the demands of the modern workforce.
